

## THE ELECTIONS.

### REPUBLICAN LANDSLIDE IN ELEVEN STATES.

#### Republican Majority in the Senate-- Women Suffrage Defeated-- The Latest.

Gov. Altgeld believes that the Republican landslide is due chiefly to the Cleveland gold bug policy, and to the packing of Democratic convention in many states with menials of the administration, postmasters, etc., who forced the adoption of Cleveland policy on the money question. The Democratic party has a lot to thank Cleveland for.

It is reported that Cleveland and Carlisle anticipated what has happened and are pleased at the result.

The Democrats have lessened materially the Republican majorities.

Ohio has gone Republican by 80,000 plurality. The celebrated Coxey received 80,000 votes and to this the Democrats lay their defeat. Campbell and Brice were knocked out.

Kentucky has a state Republican ticket elected.

Iowa has a Republican governor elected by a majority of 80,000. The legislature will return W. B. Allison to the senate. Here the Populists made large gains, chiefly from the Democratic party.

Utah. The majority in the legislature will be Republican; so also their congressman and governor. The district judges are Democratic with one exception.

Maryland is Republican. This state has been for years Democratic. A U. S. senator will be elected by the Republican legislature.

Kansas. Republican majority in this state. The chief justice also the county officers with few exceptions are Republican.

Illinois. Chicago has gone Republican by a decided majority. Hadley the Republican nominee is elected to congress for the 15th district.

Pennsylvania. Republican majority here of 159,000. The city of Philadelphia has gone Republican.

New York. Here Tammany carried the city. The state ticket is Republican by 50,000 majority.

Massachusetts. In the state women suffrage was badly beaten. The Republican majority is over 60,000 and the legislature is Republican.

Nebraska has a Republican majority. The two states of Virginia and Mississippi saved the Democracy.

The beating of the women suffrage by the Republicans in Massachusetts should teach the fair sex that their hope for emancipation from the grievous wrongs inflicted upon them by the horrid men is in their adherence to Democratic party.

#### Identifying under their Election Law

Under the New York election law the prospective voter, says the New York Sun, in order to get himself registered, must go through a process of self description just one degree less exhaustive than is imposed upon the applicant for a life insurance policy.

All the man's peculiarities are inquired into minutely. Here's one elegant description of a voter:

"Hair red and very scarce, eyes light blue and watery, height about 5 feet 6, age about 50, large mole on forehead, squeaky voice, short and fat and weight about 200 pounds."

A physician told his questioner that he had been relieved of his vermiform appendix. This was carefully noted. Another M. D. said he'd got a small wart under his collar and proceeded to nominate the affliction in a seventeen syllable word. "How do you spell it?" said the vote inspector. "That's your business?" said the doctor. "I'm only here to answer fool questions."

One veteran said, "He had a wooden leg and three bunions on—the other foot."

#### Sheriff's Notice.

Sheriff A. H. Dunning is about to make his rounds to the different precincts in the county for the collection of taxes as required by law.

All delinquent taxes that remain unpaid after he make his regular round

up, will be advertised and collected by distraint. Notices have been posted that he will be at Largo, December 3, Blanco Dec 3d, and Bloomfield Dec. 4. Due notice will be given of the time when he will visit the other precincts.  
A. H. DUNNING.

the subscription price.

Aside from these departments, the editorial and contributed features of the REVIEW OF REVIEWS are themselves equal in extent to a magazine. The Editor's "Progress of the World" is an invaluable chronicle of the happenings of the thirty days just past, with pictures on every page of the men and women who have made the history of the month.

The Literary World says: "We are deeply impressed from month to month with the value of the 'REVIEW OF REVIEWS,' which is a sort of Eiffel Tower for the survey of the whole field of periodical literature. And yet it has a mind and voice of its own, and speaks out with decision and sense on all public topics of the hour. It is a singular combination of the monthly magazine and the daily newspaper. It is daily in its freshness; it is monthly in its method. It is the world under a field glass."
